

U.S. ENVIRONMENTAL PROTECTION AGENCY
 Office of Pesticide Programs
 Antimicrobials Division (7510P)
 1200 Pennsylvania Ave., N.W.
 Washington, D.C. 20460

EPA Reg. Number:

70627-85

Date of Issuance:

3/23/22

NOTICE OF PESTICIDE:

Registration
 Reregistration
 (under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

Virex® 24

Name and Address of Registrant (include ZIP Code):

Sarah Willems
 Diversey, Inc.
 PO Box 19747
 Charlotte, NC 28219-0747

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

E. Miederhoff
 Eric Miederhoff
 Product Manager 31
 Regulatory Management Branch I
 Antimicrobials Division (7510P)
 Office of Pesticide Programs

Date:

3/23/22

2. You are required to comply with the data requirements described in the DCI or EDSP Order identified below:
 - a. Alkyl (50% C14, 40% C12, 10% C16) dimethyl benzyl ammonium chloride GDCI-069105-1679
 - b. Alkyl (50% C14, 40% C12, 10% C16) dimethyl benzyl ammonium chloride GDCI-069105-30882
 - c. Didecyl dimethyl ammonium chloride GDCI-069149-0681
 - d. Didecyl dimethyl ammonium chloride GDCI-069149-30869

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI or EDSP Order listed above, you may contact the Reevaluation Team Leader (Team 36): <http://www2.epa.gov/pesticide-contacts/contacts-office-pesticide-programs-antimicrobial-division>

3. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, “EPA Reg. No. 70627-85.”

Because you have opted to add statements pertaining to emerging viral pathogens to your label as described in the August 19, 2016, Guidance to Registrants: Process For Making Claims Against Emerging Viral Pathogens Not On EPA-Registered Disinfectant Labels (“Guidance”), https://www.epa.gov/sites/production/files/2016-09/documents/emerging_viral_pathogen_program_guidance_final_8_19_16_001_0.pdf, you are subject to the following additional terms of registration:

1. You may make statements pertaining to emerging viral pathogens only through the following communications outlets: technical literature distributed exclusively to health care facilities, physicians, nurses and public health officials, "1-800" consumer information services, social media sites and company websites (non-label related). These statements shall not appear on marketed (final print) product labels.
2. Your statements pertaining to emerging viral pathogens must adhere to the format approved on the Agency-accepted master label.
3. You may make statements pertaining to emerging viral pathogens only upon a disease outbreak that meets all the following criteria:
 - a. The causative organism must be a virus that causes an infectious disease that has appeared in a human or animal population in the U.S. for the first time, or that may have existed previously but is rapidly increasing in incidence or geographic range.
 - i. For human disease, the outbreak is listed in one of the following Centers for Disease Control (CDC) publications:

- A. CDC Current Outbreak List for “U.S. Based Outbreaks” (www.cdc.gov/outbreaks),
- B. CDC Current Outbreak List for “Outbreaks Affecting International Travelers” with an “Alert” or “Advisory” classification (www.cdc.gov/outbreaks) (also released through the CDC’s Health Alert Network (HAN) notification process)
- C. Healthcare-Associated Infections (HAIs) Outbreaks and Patient Notifications page (www.cdc.gov/hai/outbreaks)

ii. For animal disease, the outbreak is identified as an infectious disease outbreak in animals within the U.S. on the World Organization for Animal Health (OIE) Weekly Disease Information page (www.oie.int/wahis_2/public/wahid.php/Diseaseinformation/WI).

A. The CDC or OIE has identified the taxonomy, including the viral family and/or species, of the pathogen and provides notice to the public of the identity of the emerging virus that is responsible for an infectious disease outbreak. Based on the taxonomy of the outbreak pathogen identified by the CDC or OEI, the pathogen's viral subgroup is enveloped.

B. The virus can be transmitted via environmental surfaces (non-vector transmission), and environmental surface disinfection has been recommended by the CDC, OIE or EPA to control the spread of the pathogen.

4. You may begin communicating statements pertaining to emerging viral pathogens only upon CDC or OIE’s publication per term 3.a. of an outbreak of an emerging viral pathogen meeting all of the criteria of term 3. You must cease and remove all such non-label communications intended for consumers no later than 24 months after the original publication of the outbreak per term 3.a., unless the Agency issue written guidance to the contrary due to continued public health concerns. The emerging pathogen claim language may remain on the master label.

5. Terms from points 1 through 4 above shall become immediately void and ineffective if registration for use against Human Rotovirus is suspended or cancelled or no longer meets the criteria for a disinfectant claim (see EPA Product Performance Test Guideline 810.2200). In addition, terms 1 through 4 above shall become immediately void and ineffective upon your receipt of evidence of ineffectiveness against any pathogen in a less-resistant Spaulding category.

- 4. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency

find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 09/06/2021
- Alternate CSF 1 dated 09/06/2021
- Alternate CSF 2 dated 09/06/2021
- Alternate CSF 3 dated 09/08/2021
- Alternate CSF 4 dated 09/06/2021
- Alternate CSF 5 dated 09/06/2021
- Alternate CSF 6 dated 09/06/2021
- Alternate CSF 7 dated 09/08/2021

If you have any questions, please contact Karen M. Leavy by phone at (202)-566-0668, or via email at Leavy.Karen@epa.gov.

Virex 24

• [Surface Disinfectant] • [Bactericide] • [*Virucide] • [Deodorizer] • [Disinfectant] • [Sanitizer] • [Sanitizing] • [Cleaner] • [One Step¹ Disinfectant] • [non-food contact surface Sanitizer] • [24 Hour Residual Sanitizer] • [Hard Surface Cleaner] • [Soap Scum Remover]

Active Ingredient:

Alkyl (50% C14, 40% C12, 10% C16) dimethyl benzyl ammonium chloride	0.250%
Didecyl dimethyl ammonium chloride	0.250%
[Inert] [Other] Ingredients:	99.50%
Total.....	100.00%

CAUTION

KEEP OUT OF REACH OF CHILDREN

See additional precautionary statements on [back] [left] [right] [side][panel] [of] label].

FIRST AID:

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

[If on skin: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.]

PRECAUTIONARY STATEMENTS: Hazards to Humans and Domestic Animals

CAUTION: Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

IN CASE OF EMERGENCY, CALL A POISON CONTROL CENTER OR DOCTOR FOR TREATMENT ADVICE.

(1-800-851-7145)

Have the product container or label with you when calling a Poison Control Center or doctor or going in for treatment

{Features, Claims and Uses}

{Product Descriptors}

- Bactericide
- Broad-Spectrum Disinfectant
- Broad Surface Compatibility
- Cleaner
- Cleans, Deodorizes and Brightens
- Cleans, Disinfects, & Deodorizes
- Cleans Grout
- Cleans Hard, Non-porous Water Washable Surfaces!
- Deodorizer
- Disinfectant
- Easy to Use
- For (Industrial), (Institutional) & (Residential) Use
- Hospital Disinfectant Cleaner
- Multi-Surface
- Multi-surface Disinfectant Cleaner
- Multi-surface [One-Step¹] Disinfectant
- Non-Dulling
- No Gloves Required, unless directed
- No Measuring or Mixing Required
- One-step¹
- One-step¹ Disinfectant (Cleaner) (& Deodorizer)
- Ready to Use
- Sanitizer
- Sanitizes
- (Restroom) (& (Bathroom) (Disinfectant Cleaner)
- Tub and Tile Cleaner
- Use Daily to Prevent the Buildup of Dirt and Grime.
- *Virucide

(Marketing Statements)

- 5 Minute bactericidal, virucidal
- 1 step cleaning and disinfection
- A disinfectant and cleaner (that cleans, disinfects and deodorizes in one labor saving step¹)
- An effective one-step² sanitizer-cleaner on hard nonporous surfaces when used according to directions for use as a non-food contact sanitizer
- An effective one-step¹ disinfectant cleaner for hard, nonporous surfaces
- Breaks down (removes) (eliminates 99.9% of) (removes) (the most common) allergens (found in dust)++
- Broad-spectrum (Multi-purpose) (Multi-surface) (Bactericidal) (*Virucidal) (Disinfectant) (activity)
- Broad Surface Compatibility
- Clean Multiple Surfaces (with this product)
- Cleaning and disinfection in 5 minutes
- Cleans (tough) grease and grime (and) (institutional) (soils) (fast)
- Cleans (and) disinfects (and deodorizes) hard, non-porous surfaces
- Cleans grout
- Cleans hard, non-porous water washable surfaces!
- Cleans, deodorizes and brightens in one step¹
- Cleans (tough) soap scum
- (Cleans) (Removes) (Eliminates 99.9% of) (Destroys) stains
- Color Safe
- Compatible with (most) surfaces, (may leave residue on reflective surfaces)
- Compatible with (Suitable for) (Will not harm) most hard non-porous surfaces. (No bleach (or chlorine) stains)
- Compatible with (equipment) and (hard) (non-porous) surfaces
- Compatible for use on hard, nonporous surfaces commonly found in healthcare settings
- Controls (Eliminates 99.9% of) odor-causing bacteria
- Deodorizer (Odor Counteractant)
- Deodorizes odor-causing bacteria
- Developed in the USA
- Disinfect external surfaces of ultrasound transducers
- Disinfects as it cleans when used according to disinfection directions for use

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Commas may be added where needed. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Listed uses and use sites can be used partially or in their entirety. }

- Dual action formulation providing broad spectrum activity against *viruses, and bacteria
- Easy to use
- Effective – Cleans soap scum
- Effective cleaner
- Effective for use on high touch surfaces
- Equipment Surface Compatible (Formula)
- Effective against SARS-Related Coronavirus 2 [SARS-CoV-2] [in 5 minutes] on hard non-porous surfaces
- [Effective against] [Disinfects] [Kills] [99.9%] SARS-CoV-2 [virus] (the cause of COVID-19) on hard non-porous surfaces
- (Eliminates) (Kills) 99.9% of (odor-causing) bacteria (from surfaces)
- Eliminates 99.9% of odors (caused by bacteria), (and) (mold)
- Equipment Friendly
- Easy / Effective
- For (a) cleaner, fresher {insert use sites/surfaces from lists below} (or any hard, non-porous washable surface where disinfection is required.)
- For any non-food contact hard, non-porous surface where cross-contamination is a concern.
- For everyday use (in institutional (residual) (and) (industrial) facilities)
- For multiple cleaning tasks
- For non-scratch cleaning of showers and tubs, shower doors and curtains†, fixtures and toilet bowls
- For use (in) (Hospitals), (and) (Health Care) (settings) (as a multi-purpose disinfectant cleaner)
- For terminal cleaning
- (Formulated to be) surface compatible with equipment
- Formulated for healthcare equipment
- Fragrance Free Formula (Unscented)
- Gentle on Surfaces
- Good for most indoor cleaning tasks
- High (Frequently) touch[ed] surface(s) [disinfectant] [and] [cleaner]
- Intense cleaning action
- Keeps day care centers clean
- Kills (99.9% of) germs** in 5 minute
- Kills (99.9% of) the cold[¶] and flu[§] viruses
- Kills coronavirus, SARS-CoV-2, that causes COVID-19 on hard non-porous surfaces
- [Kills] [Effective against] SARS-CoV-2, the virus that causes COVID-19, on hard non-porous surfaces
- [Kills] [Eliminates] 99.9% SARS-Related Coronavirus [SARS-CoV-2] [causative agent of COVID-19] [the virus that causes COVID-19] on hard non-porous surfaces
- Kills SARS-CoV-2, the virus that causes COVID-19, on hard non-porous surfaces
- Kills [99.9% of] SARS-CoV-2, which causes COVID-19, on hard non-porous surfaces
- (Kills) (Destroys) (Eliminates 99.9% of) (household) germs** while it cleans
- (Kills) (Effective against) (the) cold[¶] (and) (flu[§]) virus(es) (on hard, nonporous surfaces)
- Kills bacteria and sanitizes
- Kills *viruses
- Kills bacteria and *viruses on (common household) hard, non-porous surfaces in 5 minute
- Kills bacteria (in 5 minute)
- Kills odor-causing bacteria
- Labor-saving (one-step¹) formula
- Leaves {insert use sites/surfaces from lists below} smelling clean (with a clean fresh scent)
- Leaves a fresh, clean scent

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Commas may be added where needed. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Listed uses and use sites can be used partially or in their entirety. }

- Multi-surface (formula)
- No fragrance added
- No rinse required on non-food contact surfaces
- No streaking (or) (filming) (sticky residue) (formula)
- Non-corrosive (to eyes) (and) (skin)
- Non-tainting (leaves no unsightly residues)
- Non-flammable
- Not for use on skin
- Odor Neutralizer
- Patented (Technology)
- Powerful to remove (dried) (stuck on) dirt (grime) (food) (spills) (grease) (greasy messes)
- Powerful cleaning
- Powerful odor control (odor neutralizer) (deodorizer) (odor-counteractant) formula (on hard non-porous surfaces)
- Powers away tough stains (stuck on dirt)
- Proven "one-step!" disinfectant/cleaner/virucide that is effective for hard, non-porous surfaces
- Quickly (eliminates 99.9% of) (removes) odors
- Reduces allergens++
- Sanitizes
- Safe for daily use on hard, non-porous surfaces
- Safe on (gloves,) (reflective) surfaces
- (Safe to) (For) use on (the following surface materials) [insert from table below]
- Specially designed to dissolve (penetrate) the toughest (stubborn) soils
- (Step-saving), (Labor-saving,) (Time-saving,) (Cost-saving) formula
- Suitable for everyday use
- Surface cleaner with antibacterial formula
- Surface Safe
- This product kills germs** and removes allergens++ while cleaning hard, nonporous surfaces
- ++This product removes the following (non-living) allergens++: (cat dander), (cockroach matter), (cockroach debris), (cockroach particles), (dog dander), (dust mite debris), (pet dander), (pollen particles)
- To be used in sanitizing and disinfecting of hard, non-porous non-food contact surfaces and non-critical equipment which may harbor or spread germs**
- Tough on germs**
- Use daily to prevent the build-up of dirt and grime
- Use only one product to get a streak-free shine plus antimicrobial action
- Use to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization / high-level disinfection
- Versatile, Fast-acting, Convenient formula
- Will not leave grit or soap scum

24 Hour Residual Sanitizing Claims

- 24 hour protection of surfaces even after [with] multiple touches
- Kills 99.9% of bacteria^a for 24 hours on treated surfaces
- Keeps treated surface sanitized for 24 hours
- Prevents bacterial growth^a on treated surfaces for 24 hours
- Continuously Sanitizing^a
- Kills 99.9% of bacteria^a in 5 minutes, and keeps killing for 24 hours.
- After 5 minutes, kills 99.9% of bacteria^a, and keeps killing for 24 hours.

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Commas may be added where needed. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Listed uses and use sites can be used partially or in their entirety. }

- 24 hours of protection from bacteria^a growth [even in high contact areas]* *Even after multiple touches
- Continuous antibacterial sanitizing^a for up to 24 hours
- Protects household surfaces from [bacteria^a] for up to 24 hours
- 24 hour bacteria^a sanitization
- [Patented][Patent Pending] formula [continues to work after multiple touches] [for up to 24 hours]
- Protects treated surfaces against bacteria^a between cleanings for up to 24 hours
- Sanitizes^a for up to 24 hours
- Scientifically proven to kill bacteria^a for up to 24 hours
- Formulated with a [new] revolutionary technology that keeps your surfaces protected for 24 hours
- Helps you protect treated hard [non-porous] surfaces from bacteria^a for 24 hours
- [The cleaner that] provides 24 hours of sanitization
- [The cleaner that] provides continuous sanitization [for 24 hours]
- Protects treated surfaces from what you can't see 24 hours of sanitization [from bacteria growth^a] *Even after multiple touches
- Sanitization That Lasts
- 24 hour (bacteria^a) sanitization
- Persistent antibacterial sanitizing for up to 24 hours
- Sanitizes treated [household] [surfaces][select from list][from bacteria^a] for up to 24 hours
- Protects treated [household surfaces] [select from list] [from bacteria^a] for 24 hours
- [Provides 24 hour residual^a control]
- Provides 24 hour [bacteria^a] sanitization
- Provides 24 hour [sanitization] [sanitizing] against {insert organisms from **Claims Table**}
- Keeps killing [99.9% of] bacteria^a for up to 24 hours [even after the surface is touched many times]
- Protects against bacteria^a between cleanings for 24 hours on treated surfaces
- Sanitization that lasts all day
- All day (bacteria^a) protection
- All day sanitization
- [Leaves behind a] bacteria^a -fighting [coating][treated surface][barrier] for 24 hours
- [Fights][Sanitizes][bacteria]for 24 hours^a
- [The cleaner that] provides 24 hour sanitizing^a
- [The cleaner that] provides 24 hour continuous sanitizing^a
- [Useful] when you want cleaning and [24 hour] sanitizing
- Keeps killing [99.9% of] bacteria^a for up to 24 hours [even after multiple touches]
- Multi-surface cleaner [with][and][&] [24 hour sanitizing]^a
- Multi-purpose cleaner [with][and][&] [24 hour sanitizing]^a
- Helps you [protect][defend][guard] your treated surfaces from bacteria^a
- 24 hour sanitizing spray for surface [sanitizing][sanitization]
- Surface protection that goes on working for 24 hours
- Keeps Killing Bacteria^a. Even After Multiple Touches [for up to 24 hours] on treated surfaces.
- 24 Hour Bacteria^a Protection
- Withstands the power of touch on treated surfaces
- Withstands repeated (contact) (touches) for up to 24 hours.
- Round the clock bacteria^a protection
- Protects your (assets) (high touch surfaces) (business) (home) between disinfection protocol
- Sanitize and protect surfaces for 24 hours
- Stays cleaner between cleans – up to 24 hours
- [This product] keeps killing bacteria^a even after multiple touches for up to 24 hours
- [This product] [is] the only 24 hour sanitizer specifically formulated for surfaces found in your home [it keeps killing, even after multiple touches]
- Sanitizes for 24 hours on treated hard non- porous surfaces against {insert organisms from **Claims List under Residual Sanitization**}

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Commas may be added where needed. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Listed uses and use sites can be used partially or in their entirety. }

**(*VIRUCIDAL: 1 MIN(UTES))
(BACTERICIDAL: 1 MIN(UTES))**

(General Uses:)

For Use in Health Care, Veterinary, Animal Housing, Dental, (Life Science) Laboratory, Medical, Educational, Retail, Fitness, Household, Hospitality, Industrial & Institutional Facilities, Food Processing Establishments, and Hospitals.

This product is a one-step¹ (hospital-use) germicidal disinfectant (and) (deodorant) (odor-counteractant) (odor neutralizer) designed for general cleaning, (and) disinfecting (deodorizing) (of) hard, non-porous inanimate surfaces. It cleans by removing dirt, grime, and other common soils found (in) (on) {insert use sites/surfaces from lists below} (or any hard, non-porous washable surface where disinfection is required.)

Equipment surface compatible formula is gentle on surfaces, safe on gloves and designed for sensitive equipment surfaces.

(It is designed for use on) (Use daily on) (the following) (hard, non-porous inanimate surfaces): {insert surfaces from lists below} (where disinfection is required). A potable water rinse is required for food contact surfaces. Do not use on glassware, dishes and utensils.

[It is designed for use on] [Use daily on] (the following) (hard, non-porous inanimate surfaces): {insert use sites/surfaces from lists below} – (where disinfection is required). A potable water rinse is required for food contact surfaces. Do not use on glasses, dishes and utensils.

(This product [or product name] (This product) is a one-step¹ (hospital-use) germicidal (disinfectant) cleaner and deodorant (odor-counteractant) (odor neutralizer) designed for general cleaning, (and) disinfecting, (and) (deodorizing) (of) hard, non-porous environmental surfaces.

(This product's [or product name] (This product) (Its) (non-dulling) (cleaning) (convenient) (easy-to-use) (effective) formula eliminates the time and labor normally required for rinsing.

(This product's [or product name] (This product) (Its) (non-dulling) (cleaning) (convenient) (easy-to-use) (effective) formula is designed for use on (Use daily on) (Use daily to clean and disinfect) (insert use sites/surfaces from lists below)

(Product name) (This product's) (Its) non-abrasive formula is designed for use on (Use daily on) (the following) [insert use sites/surfaces from lists below]

(Product name) (This product's) (Its) non-abrasive formula is designed for use on (Use daily on) hard, non-porous environmental surfaces.

(Product name) (This product) (It) cleans by removing dirt, grime, dead skin, blood, urine, fecal matter, body oils and other (organic matter) (common soils) found in [insert use sites/surfaces from lists below] (or – any hard, non-porous washable surface where disinfection is required.)

(Product name) (This product) (It) also eliminates odors, leaving (restroom) surfaces smelling clean and fresh. Use where odors are a problem.

(Product name) (This product) cleans, disinfects and deodorizes hard, non-porous environmental (hospital) (medical) (dental) (laboratory) [insert use sites/surfaces from lists below] surfaces in one step (with no rinsing required).

(Product name) (This product) cleans, disinfects and deodorizes surfaces by killing odor-causing microorganisms. Its (non-dulling) (advanced) (efficient cleaning) (convenient) (easy-to-use) (effective) formula is designed for use on (Use it daily) on [insert use sites/surfaces from lists below]

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Commas may be added where needed. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Listed uses and use sites can be used partially or in their entirety. }

(Product name) (This product) (It) (is designed for use on) (Use daily on) (the following) (hard, non-porous environmental (inanimate) surfaces): (insert use sites/surfaces from lists below) or – any hard, non-porous washable surface where disinfection is required.

(Product name) (This product's) advanced cleaning formula eliminates the time and labor normally required for rinsing. It is designed for use on the following hard, non-porous environmental surfaces: (insert use sites/surfaces from lists below)

(CLAIMS & USES:)

(Hospitals/Health Care Facilities/Dental Offices/Life Science Laboratories:)

[This product is a one-step¹ (hospital-use) (laboratory-use) germicidal disinfectant and deodorant (odor-counteractant) (odor neutralizer) designed for cleaning, (and) disinfecting, (deodorizing) (of) hard, non-porous inanimate surfaces. This product cleans by removing dirt, grime, food residue; dead skin, blood and other organic matter commonly found in {insert use sites/surfaces from lists below}. It also eliminates odors, leaving (restroom) surfaces smelling clean and fresh. Use where odors are a problem.]

[This product cleans, disinfects and deodorizes hard, non-porous inanimate (hospital) (medical) (dental) (laboratory) surfaces in one step (with no rinsing required). [Its non-abrasive formula is designed for use on] [Use daily on] [(the following) (hard, non-porous inanimate surfaces :) {insert use sites/surfaces from lists below}] (or any hard, non-porous washable surface where disinfection is required.) (found in) {insert use sites/surfaces from lists below} (It can be used to pre-clean and disinfect hospital items: {insert use sites/surfaces from lists below} (where disinfection is required). A potable water rinse is required when disinfecting food contact surfaces. Do not use on glasses, dishes and utensils.]

[This product can be used against bacteria and *viruses, on hard non-porous surfaces found in: {insert use sites from list below}]

{or}

[(Product name) (This product) can be used (in) (on) hard non-porous surfaces (of the following items) (in the following areas): {insert use sites/surfaces from lists below}]

{or}

[This product has been developed to aid in the reduction of cross-contamination between treated surfaces (not only in hospitals (and healthcare facilities), but also) in: {insert use sites from list below}]

(Animal Housing Facilities :)

[This product cleans by removing dirt, grime, blood, urine, fecal matter and other common soils found in animal housing facilities, grooming facilities, farms, kennels, pet stores, veterinary clinics, laboratories or other small animal facilities. It (also) eliminates odors leaving surfaces smelling clean and fresh.]

[This product cleans, disinfects and deodorizes hard, non-porous environmental surfaces in one step. [Its non-abrasive formula is designed for use on] [Use daily on] [Use daily to clean and disinfect] (hard, non-porous surfaces (of):) {insert use sites/surfaces from lists below} (where disinfection is required.) found in (barns, pens and stalls) animal housing facilities.]

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Commas may be added where needed. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Listed uses and use sites can be used partially or in their entirety. }

{Surface Materials} (Surfaces:)

[This Product (Product Name) can be used on the following hard, nonporous surfaces:]

- Amalgamators
- Anesthesia machines
- Animal equipment
- Apex locators
- Apheresis machines
- Appliance exterior(s) ³ [surfaces]
- Appliance -or- cabinet knobs
- Autoclaves ³
- Automatic feeders
- Bathroom doorknobs
- Baked enamel surfaces
- Bassinets
- [Bathroom] fixtures
- [Bathroom] (and) [Kitchen] faucets (and) [handles]
- Bathrooms sinks and faucets
- Bathroom surfaces
- [Bath]tubs
- Bed frames
- Bedpans
- Bedrails
- Commodes
- Bedside tables
- Blood pressure cuffs and monitors
- Booster chairs
- Bottoms of pots and pans
- Burner trays
- Cabinets
- Cages
- Call boxes
- Car interiors
- Chairs
- Changing tables
- Charging stations
- Chemotherapy hoods
- Furniture
- Closets
- Coated mattresses
- Coated pillows
- [Common] hard, nonporous [household] surfaces
- Compactors
- Computers
- [Computer] keyboards
- [Computer] monitors
- Computer mouse
- Computer screens
- Cooler exteriors ³
- Cords
- Counter[top]s
- [Crash] (and) [emergency] carts
- Cupboards
- Cribs
- Dental countertops
- Dental operatory surfaces
- Dental surfaces
- [Dentists'] [Dental] chairs
- Dental unit instrument trays
- Desk [tops]
- Diagnostic equipment
- Dialysis machines
- Dictating equipment [surfaces]
- Docking stations
- Door [handles] (and) [frames]
- Doorknobs
- Drainboards
- Drawers
- Dryers ³
- Dressing carts
- Elevator buttons
- Endodontic equipment
- [Exam] [Examination] tables
- Exercise] (and) [athletic] equipment
- Exercise mats
- Exhaust fans
- Exterior surfaces of air vents
- External surfaces of [medical] equipment

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Commas may be added where needed. - Washable kitchen surfaces
- Washable walls
- Wastebaskets
- Wheelchairs
- Window blinds
- Windows
- Windshields
- Work benches
- X-ray equipment

Note: Prior to use on electronic equipment or components, (please) refer to manufacturer's instructions (for appropriate use).

(It is) (Designed) For (daily) (use) (cleaning) (disinfecting) (on) (of) (medical) (hard, nonporous inanimate (environmental) surface(s) (materials)) (Compatible with):

- Acrylic,
- baked enamel surfaces,
- Corian®,
- Chrome,
- non-food contact crystal,
- finished terrazzo,
- glass,
- glazed ceramic (tile),
- glazed porcelain,
- glazed tile,
- laminated surfaces,
- linoleum,
- metal (except copper and brass),
- painted surfaces,
- plastic (surfaces),
- glazed quarry tiles,
- rubber,
- sealed fiberglass,
- sealed granite,
- sealed marble,
- sealed mirror stone,
- stainless steel,
- synthetic marble,
- vinyl,

[Not recommended for use on] {or} [avoid contact with]: brass or copper.

Note: This product is compatible with the listed materials. If product is intended to be used on other surfaces, it is recommended to test product by applying to a small discrete area to determine compatibility before proceeding with its use.

[This product] [{product name}] is formulated to be used against the following soils and stains:

- Beverage stains
- Blood
- Body oils
- Body Fluids
- Coffee [stains]
- Cosmetics
- Dead skin
- Dirt
- Fecal matter
- Fingerprints
- Food spills
- Food residues
- Food stains
- Fruit [stains]
- Grease
- Grime
- Heel [marks] [scuffs]
- Juice stains
- Laboratory stains
- Mold stains
- Mud
- Common [soils] [stains]
- Organic matter
- Ink [marks]
- Pet stains
- Rust
- Smudges
- Soap Scum
- Tea [stains]
- Tough soils
- Urine [stains]
- Wine stains

Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Listed uses and use sites can be used partially or in their entirety. }

{New and Improved Claims}

{Note to the reviewer: the following short claims might be inserted on the container label only for the period of 6 months after the launch}

- [Better] [Improved] [New] [New and improved] [packaging]
- [New and improved]
- [New Claims]
- [New Kill Claims]
- [New - Saves Time]

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

{Note to reviewer: The following paragraph will be used on labels that list medical devices as defined by the FDA, and is manufactured accordingly.}

(This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the blood stream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.)

{or}

This product is not for use on critical and semi-critical medical device surfaces

(CLAIMS AND ORGANISMS:)

When used as directed, this product is effective against a wide variety (broad-spectrum) of pathogenic microorganisms (including bacteria and viruses). (See reference sheet (enclosed in each case) for a complete list of organisms.)

(HOSPITAL DISINFECTANT:)

BACTERICIDAL: {Note to reviewer: Only one of the following statements will be on the product label}

(in the presence of 5% serum load and 5 minute contact time on hard, non-porous environmental surfaces.)

{or}

(5 minute contact time)

{or}

(5 minutes)

[Bacteria] [Bactericidal] (Activity):

[Organism]	[Contact Time]
<i>Staphylococcus aureus</i>	5 minute
<i>Pseudomonas aeruginosa</i>	5 minute
<i>Salmonella enterica</i> , formerly known as <i>Salmonella choleraesuis</i>	5 minute

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Commas may be added where needed. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Listed uses and use sites can be used partially or in their entirety. }

***VIRUCIDAL:** {Note to reviewer: Only one of the following statements will be on the product label}

(in the presence of 5% serum load and 5 minute contact time at 20°C (68°F) on hard, non-porous environmental surfaces.)

{or}
(5 minute contact time)

{or}
(5 minutes)

(*Viruses (*Virucidal Activity)):

(Organism)	(Contact Time)
Influenza A H1N1 [2009 H1N1] §	5 minute
Human Rotavirus	5 minute
Human Coronavirus	5 minute
Human Respiratory syncytial virus [¶]	5 minute
Severe Acute Respiratory Syndrome coronavirus [SARS-CoV-2]	5 minute

Non-Food Contact Surface Sanitizer for hard non-porous surfaces: {Note to reviewer: Only one of the following statements will be on the product label}

(in the presence of 5% serum load and 1 minute contact time on hard, non-porous environmental surfaces.)

{or}
(1 minute contact time)

{or}
(1 minute)

(Organism)	(Contact Time)
<i>Klebsiella pneumoniae</i> ,	1 minute
<i>Staphylococcus aureus</i> ,	1 minute

^α(24 Hour) Residual Sanitizer for hard non-porous surfaces: {Note to reviewer: Only one of the following statements will be on the product label}

(in the presence of 5% serum load and 5 minute contact time on hard, non-porous environmental surfaces.)

{or}
(5 minute contact time)

{or}
(5 minute)

(Organism)	(Contact Time)
<i>Staphylococcus aureus</i> ^α	5 minutes
<i>Klebsiella aerogenes</i> ^α	5 minutes

Malodor(s) (Activity) (Counteractancy) – eliminates (destroys) odors and odor-causing bacteria on hard, nonporous surfaces in restroom areas, behind and under sinks and counters, and storage areas (and other places where bacterial growth can cause malodors).

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Commas may be added where needed. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Listed uses and use sites can be used partially or in their entirety. }

{Claims against Emerging Viral Pathogens}

This product qualifies for emerging pathogen claims per the EPA's "Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels" when used in accordance with the appropriate use directions indicated below.

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral categories:

- Enveloped viruses

<i>For an emerging viral pathogen that is a/an...</i>	<i>...follow the directions for use for the following organisms on the label:</i>
Enveloped virus	Human Rotavirus, (ATCC VR-2018)

{Acceptable claim language:}

[Product Name (or ABN)] has demonstrated effectiveness against viruses similar to **[name of emerging virus]** on hard, non-porous surfaces. Therefore, **[Product Name(or ABN)]** can be used against **[name of emerging virus]** when used in accordance with the directions for use against Human Rotavirus on hard, non-porous surfaces. Refer to the [CDC or OIE] website at **[pathogen specific website address]** for additional information.

[Name of illness/outbreak] is caused by **[name of emerging virus]**. **[Product Name (or ABN)]** kills similar viruses and therefore can be used against **[name of emerging virus]** when used in accordance with the directions for use against Human Rotavirus on hard, non-porous surfaces. Refer to the **[CDC or OIE]** website at **[website address]** for additional information.

{Trigger Spray}

To Operate: Turn nozzle to [preferred usage] ["ON" position] [desired position].

[To Refill [Bottle]: Remove trigger sprayer. Pour in product from refill container and replace trigger.]

DO NOT USE on eating/cooking utensils, glasses/dishes or cookware. If used on food contact surfaces, must be rinsed with potable water.

Not recommended for use on [wool], [silk], [unfinished, oiled, or waxed wood surfaces][upholstery] [washable fabric]. [For other surfaces, test in an inconspicuous area.] [Test on an inconspicuous area for colorfastness.]

Does not harm most [kitchen][bathroom] surfaces.

May have visual residue on reflective surfaces

For Use as a (One-Step¹) (Cleaner)/(Disinfectant)(Sanitizer)(Non-Food Contact Sanitizer):

1. Hold container 6"-8" from surface and spray until visibly wet
2. All surfaces must remain visibly wet for 5 minute.
3. Allow to air dry (or rinse (with potable water if necessary)).

Note: All food contact surfaces must be rinsed with potable water. Do not use on glassware, utensils, or dishes.

For Use as a Cleaner and/or Deodorizer:

Apply product to hard, non-porous environmental surfaces. Allow to air dry (or rinse (with potable water if necessary)).

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Commas may be added where needed. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Listed uses and use sites can be used partially or in their entirety. }

For use as a Sanitizer:

1. Pre-clean visibly soiled areas.
2. Apply Solution with spray, cloth, disposable wipe or mop to hard, non-porous environmental surfaces.
3. Allow the surface to remain visibly wet for 1 minute.
4. Wipe surfaces dry (or rinse) (or allow to air dry).
5. Change solution after each use (application).

For use as a Sanitizer for 24 Hours:

1. Pre-clean visibly soiled areas.
2. Apply Solution with spray, cloth, disposable wipe or mop to hard, non-porous environmental surfaces.
3. Allow the surface to remain visibly wet for five minutes.
4. Allow to air dry.

Animal Housing Facilities (Including Veterinary Clinics, (Equine) Farms, Livestock, Swine and Poultry Houses): For cleaning and disinfecting the following hard, non-porous surfaces: feeding and watering equipment, utensils, instruments, cages, kennels, stables, catteries, etc.

1. Remove all animals and feeds from premises, animal transportation vehicles, crates, etc.
2. Remove all litter, droppings and manure from floors, walls and surfaces of facilities (including pens, chutes, and barns) occupied or traversed by animals.
3. Empty all troughs, racks, and other feeding or watering appliances.
4. Thoroughly clean all surfaces with soap or detergent and rinse with potable water. Apply product to hard, non-porous environmental surfaces.
5. All surfaces must remain visibly wet for 5 minutes.
6. Allow to air dry (or rinse (with potable water if necessary)).
7. Ventilate buildings and other closed spaces.
8. Do not house animals or employ equipment until treatment has been set or dried.

NOTE: Not for use on handling and restraining equipment such as leashes, muzzles, halters or ropes, as well as forks, shovels, and scrapers used for removing litter and manure.

(Allergen Destruction)

To Clean and Destroy Specified Allergens: Spray [Spray/Apply], wait 1 minute, and wipe excess. (Allow to air dry) (or) (rinse). (If streaking is observed, wipe with a clean, damp (cloth or) paper towel.)

Allergens:

- Cockroach matter -or- particles
- Dust mite matter -or- particles
- Pet dander -or- dog and cat dander

(Refill)

(To Transfer This Product Into Smaller (Secondary) Containers:)

[This product may be transferred into clean, properly labeled containers for use elsewhere within your facility.] The small container and transfer items (plastic funnels or hand pumps) must be clean and dry. Pour (or pump) product directly into a properly labeled smaller container being careful not to spill any product. Keep containers sealed when not in use. Refill in a well ventilated area.

[Storage and Disposal for Institutional Use Products]

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal. Store in original container in areas inaccessible to small children. Keep securely closed. Do not allow product to freeze.

PESTICIDE STORAGE

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Commas may be added where needed. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Listed uses and use sites can be used partially or in their entirety. }

Store in a dry, well-ventilated area away from chemicals, direct light, heat or open flame. Do not mix with other cleaning or disinfecting products.

Pesticide Disposal:

Store in original container in areas inaccessible to small children. Keep securely closed.

Container Disposal:

NONREFILLABLE READY-TO-USE FORMULATIONS: *{Note to reviewer: The following text will be used on nonrefillable RTU container labels:}*

Nonrefillable container. Do not reuse or refill this container. Wrap empty container and put in trash(, or offer for recycling if available).

REFILLABLE CONTAINERS: *{Note to reviewer: The following paragraph will be used on labels for refillable containers:}*

Refillable container. Refill this container with (Product name) only. Do not reuse this container for any other purpose.

Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller.

{Note to reviewer: One of the following statements will be used, depending on the type of container}

{For product supplied in refillable or non-refillable containers}

(To clean the container prior to final disposal, empty the remaining contents from this container into application equipment or mix tank. Fill the container about 10 percent full with water. Agitate vigorously or recirculate water with the pump for 2 minutes. Pour or pump rinsate into application equipment or rinsate collection system. Repeat this rinsing procedure two more times.)

[Storage and Disposal for Residential Only Use Products]

Storage and Disposal

PESTICIDE [PRODUCT] STORAGE: Store in original container in areas inaccessible to small children. Keep securely closed.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Wrap [container] and put in trash or offer for recycling if available.

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Commas may be added where needed. Any language which appears between {braces} and is italicized is for administrative purposes only and will NOT appear on final printed label. Listed uses and use sites can be used partially or in their entirety. }

{Graphics - May be placed anywhere on the label}

{The graphics below, or other pictograms are representative of graphics, that may appear on the product label.}

{Footnotes for Symbols Mentioned in Label}

++ Claims against non-living allergens

* Viruses

** Kills *Salmonella enterica*, *Staphylococcus aureus*, Human Rotavirus, and Human Coronavirus

¹one-step claim is only for use on nonfood contact surfaces, food contact surfaces must be rinsed and when directions for use are followed

² when following non-food contact sanitizer directions

³all appliances must be at room temperature before applying product
